

Chapter 12 Review

- Review your Chapter 12 notes and homework
- Do the following from 'Self-Quiz' on page 544-545 # 1 – 10, 13, 14

(note: answers are in back of textbook – Check your answers!)

- Try these tougher ones: page 544-545
 - # 11 – This is a question about insulators/conductors and safety
 - # 12 – This is a question asking you to talk about turbines and how this produces electrical energy. All methods mentioned in questions use a spinning turbine.
 - #15 – This is a question that asks you to talk about why we should conserve energy. You should also talk about how over time you will save money operating an efficient machine and may make your money back.
