

DDT is forever

1. What did Dr. DeWailly study? What did he predict? Why?
2. What did he discover about toxins in northern population vs southern population?
3. What is DDT? What is it good for (benefit?). What is the problem (harm)?
4. What are PCB's? What problems do they cause?
5. DDT and PCB's are fat-soluble. What does that mean? Why is that a problem?
6. How are native peoples solving the DDT problem?
