

Describing Ecosystems

Words

- Producer = something that produces (makes)
- Consumer = something that consumes (uses/eats)
- Biotic = living
- Abiotic = **not** living

Try # 1 & #2 on page 23

Then try graphing #3.

Then #4. (We will do in stages in class).

More Words

- Sphere = ball
- Bio = life
- Lithos = rock
- Atmos = air
- Hydro = water

So...

- Biosphere = area where life exists
- Lithosphere = rocky parts of world
- Hydrosphere = water parts of world
- Atmosphere = gas parts of world

Life can exist in all spheres. Let's find examples

Lithosphere –

Hydrosphere –

Atmosphere -
