

## Plant Leaf Cross Section

XS – can mean ‘cross section’ when referring to a microscope slide. So this is a ‘Plant Leaf XS’.

This is a very stylized version. Here is a link you might wish to look at  
<http://scienceaid.co.uk/biology/plants/transpiration.html>

This is a more realistic diagram and the link to its website:  
<http://www.emc.maricopa.edu/faculty/farabee/biobk/biobookplantanat.html>

This is a microscope slide – the real thing! It may not print out well but it's fun to look at. Can you identify the different cells?
